

Community mental health tobacco treatment training

Training guide: Module 18

**Summary, participant reflections,
evaluation and close**

Module 18

Summary, participant reflections, evaluation and close

Importance:

- It is important to summarize key information and skills delivered throughout the course and where to go for more information, training, and support.
- It is important to leave the session with reflections on how the training will add to their practice.
- It is important to motivate CMH workers and Advisors of the importance on their role in supporting clients.

Purpose:

- To recap the skills and learning outcomes covered in the course.
- To provide information regarding NCSCT briefings, clinical tools and e-learning resources.

To allow feedback from participants and conduct course evaluation.

Process:

- Group discussion
- Completion of post-course questionnaire and evaluation

Resources:

- Post-course confidence assessment (handout or online form)
- Course evaluation (handout or online form)

Presenter's notes
